### activator

PARABEN FREE / SULFATE FREE

A new Activator has been developed as part of the range and is especially suitable for **demi-permanent (tone-on-tone) hair color applications and toning and color correction.**

Its color-activating strength has been designed to develop the color pigments, setting them firmly within the hair cortex, without causing deterioration of the hair's natural melanin, therefore avoiding lift of the hair's natural base color. The result is long-lasting color and maximum care for the hair fiber.

Its formula contains **Aloe Vera** and **low-molecular-weight keratin** for maximum care of the hair structure and improved post-color strength.

# Salerm COSMETICS keratin shot

## REHYDRATING TREATMENT WITH STRAIGHTENING EFFECT

### maintenance shampoo

PARABEN FREE / SULFATE FREE

A shampoo especially formulated **to get hair ready for the keratin straightening system as well as post treatment care**. Contains specific components which ensure the correct duration of the Keratin Shot effect.

**USE:** wet hair with warm water · Apply approximately 0.18 OZ. of Keratin Shot Shampoo.

Lather gently into the hair and scalp · *Leave on for 5 minutes*. Rinse and repeat.

Rinse well with plenty of warm water and follow up with Salerm Cosmetics Deep Impact Plus mask.

- 18 OZ. (art. 182)
- 0.38 OZ. maintenance shampoo + deep impact sachet (art. 182S-816S)

### straightening cream

Keratin Shot Straightening Cream is a revolutionary treatment to aid the straightening process. It works by adding keratin and modifying the shape of the hair. This system has several benefits including the amazing recovery of natural moisture, shine and silkiness, extra volume control and longer lasting straight hair.

**USE:** wash hair twice with **Keratin Shot Maintenance Shampoo**. Towel dry and leave the hair slightly damp.

Separate the hair into four sections and apply **Keratin Shot Straightening Cream** to each section using a spray · *Leave to work for 10 / 15 minutes* with applied heat · Use a hairdryer to straighten the hair thoroughly, until totally dry.

Divide once again into four sections and go over using a ceramic or porcelain, (never aluminium), iron, until the hair is perfectly straight and all remains of the Cream have vanished.

To finish apply a small amount of **Keratin Shot Serum**.

**After treatment do not wash for 72 hours.**

- 17.3 OZ. (art. 181)

### deep impact plus mask

SULFATE FREE

A deep action, rich, and extremely hydrating treatment mask to instantly normalize treated hair.

**USE:** wash and towel dry hair. Apply Deep Impact Plus and *leave to work for at least 3 minutes*.

Rinse thoroughly.

**If you prefer not to rinse, or for application on dry hair no more than a hazelnut sized amount should be used.**

- 34.5 OZ. (art. 795)
- 6.9 OZ. (art. 816)
- 0.38 OZ. maintenance shampoo + deep impact sachet (art. 182S-816S)

### serum

PARABEN FREE / SULFATE FREE

**Third step in the Keratin Shot treatment** for before and after styling.

**USE:** spray onto damp hair · Straighten hair dry with a hairdryer or (ceramic or porcelain) iron.

Spray a small amount onto dry hair.

- 3.38 FL. OZ. (art. 195)

### keramix

PARABEN FREE / SULFATE FREE / 100% VEGAN

STRAIGHTENING TREATMENT

## evolution liss cream

PARABEN FREE

Permanent straightening cream enriched with hydrolyzed keratin. Plex Fiber Protect Technology strengthens and cares for the hair fibers, resulting in straight, soft and shiny hair.

**USE:** use gloves and a bowl or other non-metallic receptacle to apply EVOLUTION LISS CREAM (soft or strong). Make partitions as necessary and apply with the help of a comb strand by strand. Apply at least 0.2 inches away from the scalp.

Comb once to align the fibers. **Important:** do not cover hair or use additional heat during the exposure time. Check one strand when minimum exposure time has been reached then check again regularly to prevent overexposure. Leave on for the appropriate exposure time (5-30 minutes on color-treated hair and 5-40 minutes on virgin or resistant hair) then rinse with lukewarm water until the product has been completely removed. Blow dry with your fingers then use a flat iron to go over each strand once or twice (the temperature will depend on the hair's condition, but we recommend 300° F for sensitive hair and 356° F for virgin or resistant hair).

**Tip:** this step can be skipped if hair doesn't have a pronounced curl or is very short and the treatment continued without using an iron. The results may not be so straight. In this case, the exposure time may be increased by a few minutes to compensate as necessary.

- 7.9 OZ. soft (art. 867)
- 7.9 OZ. strong (art. 868)

## evolution neutral mask

SULFATE FREE

Neutralizing cream for technical processing, enriched with hydrolyzed keratin.

Plex Fiber Protect Technology strengthens and cares for the hair fibers, resulting in straight, soft and shiny hair.

**USE:** use gloves and a bowl or other non-metallic receptacle to apply evolution NEUTRAL MASK.

Apply to strands and comb straight, leaving the product to work for 10 minutes.

Rinse off with plenty of water.

- 32.1 OZ. (art. 869)

## evolution care & protect cream

PARABEN FREE / SULFATE FREE / 100% VEGAN

Strengthening cream that protects and provides nourishing essential amino-acids, as well as sealing the hair structure to guarantee longer-lasting straightness. Formulated with Plex Fiber Protect which protects, improves and strengthens hair with each use.

**USE:** spray onto hair and comb through. Leave-in. Proceed as usual.

We recommend complementing the treatment with the Keratin Shot maintenance kit for optimum results.
